TREES FOR LIFE

As part of voco's 'Step by Step' commitment to sustainability, we're working with Trees for Life to create a grove in the Scottish Highlands. The trees in this grove will be carefully planted in protected sites where they will create homes for wildlife and forests for the future.

Your donation of £5 pp will be subsidised by voco Grand Central, Glasgow by £1 pp, allowing Trees for Life to plant one tree for each delegate.

GREEN ENGAGE

As an IHG Green Engage™ hotel, we have actively implemented IHG Hotels and Resorts' best practice solutions to reduce energy use.

Using the IHG Green Engage™ system, we are continuously monitoring our impact on the environment, as well as looking for ways to reduce it.

You can find out more about the ways we're making our hotel more sustainable here.

GREEN KEY

We are proud to hold a Green Key accreditation.

Green Key has been a leading standard of excellence in environmental responsibility and sustainable operation within the tourism industry since 1994. In order to achieve the accreditation, an establishment must meet and maintain extremely high environmental standards, proven through rigorous documentation and frequent on-site audits.

We encourage our guests to travel to us via public transport wherever possible (especially with Glasgow Central Station quite literally on our doorstep!). However, if your delegates do need to drive to join us, there are three areas with electric car charging stations within a ten minute walk of the hotel. [Find out more and search for other EV charging spots in Glasgow here.](#)
